KASKASKIA COLLEGE FOUNDATION

Foundation Highlights

The premier event of the year for the Kaskaskia College Foundation was the first annual Entrepreneur of the Year Dinner that was held in October 2002. This outstanding event was an initiative of the new Kaskaskia College Foundation Teachers and Coaches Entrepreneurship Program. Mr. Ralph Sprehe and the late Don Geary, both of long-time supporters of Kaskaskia College, were recognized as the first recipients of the awards.

The Foundation Board of Directors formally presented Kaskaskia College with a check in the amount of \$751,050 in June 2003 for the new Health and Professional Careers Building. The funds for this initiative were raised through the Capital Campaign.

Foundation Scholarships were awarded to 65 Kaskaskia College students with the total amounting to over \$41,000.

The Foundation experienced another successful year in raising funds for student scholarships through the annual golf tournament. The Fifteenth Annual Kaskaskia College Foundation Golf Tournament was held on Friday, June 27, 2003 at the Salem Country Club with 116 golfers participating with numerous hole sponsors and private donations.

The Foundation Scholarship Dinner was held September 13, 2002 in the Kaskaskia College Student Center with a record number attendance. Students who received Foundation scholarships were able to meet with the Foundation Board of Directors and many of the donors who made their scholarships possible. Marietta Broughton, Foundation Director, is the annual chairperson of the Foundation Scholarship Program.

On January 27, 2002, the Kaskaskia College Foundation transferred ownership of the Harry L. Crisp Technology Building to Kaskaskia College in a formal ceremony during the January Foundation Board Meeting.

The Geary Family of Centralia established an endowed scholarship in the name of the late Don Geary.

Heartland Ecosystems began an endowment fund as a tribute to Don Reed, an instructor at Greenville High School who has a tremendous positive influence on students at that high school.

Kaskaskia College Sports Association

To help the Kaskaskia College athletic program fulfill its mission to assist all student athletes to reach their potential both academically and athletically, the Kaskaskia College Sports Association (KCSA) has been established through the Foundation. The KCSA will help build relationships and secure resources that will enable the KC athletic program to achieve excellence. The goals of the KCSA include increasing community awareness of student-athlete success; improving the relations between the KC Athletic Department and the communities with which the College interacts; and securing gifts, contributions, endowments, bequests, etc. which will ensure the high quality and future growth of the Kaskaskia College athletic program. Several community members and supporters of Kaskaskia College athletics have stepped forward to assume leadership roles in this new organization.

Friends of the Fine Arts

The new Friends of the Fine Arts program links the College to the community through the fine arts program at Kaskaskia College. The goal is to establish an organization of patrons and benefactors whose primary purpose is to support the visual and performing arts at Kaskaskia College. The Friends of the Fine Arts will help ensure that the College fine arts programs are able to provide high quality cultural and educational opportunities for both students and the community. Members of the Friends of the Fine Arts will receive invitations to special events, receptions and also receive recognition in all event programs. Those joining the Friends of the Fine Arts during the inaugural year (through August 1, 2004) will be listed as a Founding Member of the Kaskaskia College Foundation Friends of the Fine Arts.

Vandalia Project

A feasibility study is currently underway to determine if establishing a satellite campus in the Vandalia area would be a feasible undertaking for the College.
