CLASS	DESCRIPTION
Computer Basics 1	This hands-on computer course gives novice computer users the opportunity to become a seasoned intermediate computer user. Students will learn the components and parts of a computer as well as computer terms and how to create, print and save documents, and how to personalize the desktop. Internet and basic email accounts and functions will be presented and discussed.
Writing Your Life Story	Writing the story of your life can heal, inspire, and entertain and only you can do it. This course leads you quickly through the process from idea to manuscript, helping you write like a pro.
Computer Basics 2	This hands-on computer course gives computer users the opportunity to build on the learning experience from Computer Basics Part 1. Students will learn additional components and parts of a computer. Computer terms as well as how to create, print, and save documents, and personalize the desktop will be discussed. Students will become more familiar with MS Windows applications. Additional internet topics will be presented and discussed.
Pour Painting	This form of abstract art uses acrylics with a runny consistency to create endless creative possibilities thanks to different ways to combine acrylic paints and there is something so satisfying about watching it spill across a surface.

To register: Please call Salem Education Center at **545-3425**, or Industrial and Continuing Education at 545-3255.
